Howard Schatz: Above and Beyond

In 2018, Howard Schatz undertook a new project called “*Above & Beyond: Interviews and Photographic Portraits of Extraordinary People in Our Time.*” To date, he has photographed and interviewed 25 of these creative individuals with many more to come. Among those already in the project are architect Maya Lin; typography master Matthew Carter; designer Phillippe Starck; choreographer Bill T. Jones, and author Michael Pollan. Howard Schatz’s first career was in medicine; he was a world-renowned retina specialist. He began working seriously as a photographer in 1987 and left his medical practice in 1995 to pursue photography full time. In the 32 years since, his work has been published in 22 books and countless magazines. His work can be found in major public and private collections worldwide. He is a phenomenon and should be included in this gallery of icons.

Marion Wright Edelman, Founder of the Children’s Defense Fund
